Project Summary

Innovecs worked with multiple clients to integrate advanced monitoring features, create slot game assets, develop live dealer games, and manage SDK projects, ensuring high-quality and timely delivery.

Challenge

The client needed complex data integration: seamless incorporation of monitoring and analytics systems. Additionally, smooth asset implementation across multiple platforms was required to ensure consistency and functionality.

Solution

» Data Aggregation System:

Built high-performance backend for real-time analytics.

» Game Development Support

Created and optimized slot and live dealer games.

Results

Successfully launched multiple games with

enhanced monitoring and analytics.

Delivered high-quality slot and live dealer experiences

on schedule.

Improved workflows with automation,

reducing operational overhead.

Business Value

Optimized Workflows:

Streamlining game and platform development improves operational efficiency, reduces costs, and accelerates time-to-market, helping the business stay competitive and responsive to client needs.

Client-Centric Flexibility:

Adapting engagement models to meet varied project needs enhances client satisfaction and fosters long-term relationships.

Scalable Solutions:

Enabling growth and adaptation to new gaming markets allows the business to expand its reach, tap into emerging opportunities, and remain agile in a fast-evolving industry.

About Innovecs Play

Innovecs Play, a sub-brand of Innovecs, is a full-cycle iGaming development studio specializing in custom casino games, scalable platforms, and backend solutions. We help iGaming providers, operators, and aggregators create high-performance, compliance-ready, and innovative gaming products. With data-driven insights, cloud-based scalability, and 300+ projects delivered, we empower clients to scale their iGaming businesses efficiently.
